- If a car passes the start line before all of the red lights are out, false start is registered
- Final decision is made by Rally Marshal present at start area and is noted in the Rally sprint start Protocol
- In a case of malfunction of electrical start devices, start is given according the Rally sprint regulations of LAF SAC.

12.7. Principles of Security and Tracking

Security and tracking devices are connected to a monitoring centre that stores all data received. All data are stored on the same device. The device has a self-contained power supply that operates through out the Rally Sprint.

The device has "SOS" and "OK" buttons.

Each device has a unique serial number that is assigned to each crew. During the reconnaissance and event the Rally HQ will monitor the position and speed dating of each crew.

12.7.1. „SOS" and "OK" signaling principles

By pressing „SOS” button a crew reports about an accident and requests an immediate assistance.

In this case, it is obliged to inform the Rally HQ, call the telephone number indicated on the label. By pressing "OK" button the crew informs of the stop for more than 30 seconds if there has been an accident or technical problems during the SS, but immediate assistance is not required (even if a crew is trying to continue the Rally).

Attention! In case of stopping at SS, the device sends automatic "SOS" signal and the crew within 30 seconds must press "OK" button to remove the “SOS” signal sent by the system. A mobile phone of the crew must be switched on (or turned on in 60 seconds) so the Rally security and monitoring Centre can reach the crew.

Irregularities in the wrong "SOS" and "OK" signal transmission will be punished.

12.8. Accidents and retirement procedure

If a crew retire, it must note in the Time Card the reason of retirement and return the Time Card (Carnet) to closing car „Green Light” who is equipped with glittering green signal lights and follows after the last competitor. The fines for failure to comply with this 70 EUR.

In a case of an accident or technical failure on the Special Stage when the competing car is on the road or less than 3 m from the road the driver must warn other competitors by placing emergency signs of not less than 100 m from the accident place on visible side of the road where the crashed car stands.

The reason of retirement must be reported to the Rally sprint HQ to number, which is on GPS sticker.

Drivers, who can not continue because of an accident, must present the car to the Chief Scrutineer until the Prize awarding ceremony. If it is not possible, a separate agreement must be reached with the Chief Scrutineer on scrutiny after the rally sprint. As ruled by the Council of LAF SAC, penalty for not submitting the control card and stating a false cause of withdrawal, is prohibition to enter next event.
